

Production Planner

Job description:

Due to expansion of our production capacity, we are looking for a Production Planner with a related technical back-ground to further organize our Electronics Product Assembly line. You will be responsible for the weekly planning and Control of three electronics departments at Praxis Automation. Firstly, the printed circuit boards assembly line which runs on "just in time" principle. Praxis Automation Technology has 2 SMD lines operated by a team of technicians who assemble our printed circuit boards. Secondly, the produced PCB's will go through a 100% test routine at our test department. As a final step, the production department will assemble the PCB's and other components into complete Products. This whole process requires strict and accurate planning and preparation.

You work closely with the Manager Production and take care of the daily planning of the various Production departments based on the needs of sales and Project Engineering departments. The production Planner also informs the sales department about the expected delivery times of the various Praxis products.

Responsibilities:

- Planning our products at the different production departments,
- Create short- and long-term planning for capacity determination,
- Check that planning matches actual production output
- Where necessary, adjust the process to ensure production schedule
- Provide Feedback on expected delivery times to colleagues,
- Control of potential material shortages affecting the production schedule

Requirements:

- MBO/HBO training, preferably electronics
- Experience with ERP packages is an advantage, preferably with Exact Globe
- Advanced experience with Excel
- Understanding and affinity with production processes
- Good communicative properties in Dutch and English.

We offer:

- An informal, collegial working atmosphere
- Market conform salary
- A good secondary terms of employment package
- Ability to learn and grow in this line of technology

Who we are?

Founded in 1965 in Leiderdorp, The Netherlands, Praxis Automation Technology is a manufacturer and supplier of automation, navigation and green propulsion systems for sea going vessels.
