

Are you a technical talent, and do you want to strengthen our Engineering team?
Then we are looking for you!

Service Engineer (m/v)

Job descriptions

As a service engineer you will be responsible for the service and commissioning of automation, navigation and electrical propulsion projects. You will work closely together with other departments, most notably engineering and innovation. You will report to the Manager Customer Service.

Responsibilities

- Representation of our company on board ships and at customer's locations.
- Troubleshooting on board ships and other installations equipped with Praxis systems
- Commissioning of newly delivered systems in close co-operation with our customers and other suppliers
- Frequent travel to customer's locations in NL and worldwide
- Provide important feedback to our innovation and engineering departments so we can continuously improve our products
- In-house technical support to our customers and internally to other departments
- After an internal training you will be expected to be able to carry out your assignments independently, off course you can always rely on remote support from your colleagues in the office

Requirements

- Diploma MTS/HTS with specialization in automation, electrical engineering or automotive engineering
- Both starters and engineers with several years of experience are welcome to apply
- Interested in working with automations systems
- Affinity with shipping is a plus
- Customer oriented attitude
- Good communications skills (at least in Dutch and English)
- Willingness to frequently travel abroad (mostly for short trips of about 3-4 days)
- Good analytical skills and a problem solving approach
- Used to teamwork and a positive attitude

We offer

- A job in an exciting and very international environment
- An informal, collegial working atmosphere
- A team of enthusiastic colleagues
- A competitive salary
- A good secondary employment package

Who are we?

Founded in 1965 in Leiderdorp, The Netherlands, Praxis Automation Technology is a manufacturer and supplier of automation, navigation and green propulsion systems for sea going vessels.

Our passion for shipping and technology is the engine of our company. We offer high-quality innovative systems that use the very latest technologies. A key strength is being able to convert the wishes and needs of our customers into a tailor-made quality systems, our company is a trendsetter in sustainable innovations.

We supply our products to international shipyards, ship owners and installers and serve them via our selected global network of service and maintenance points.

With more than 70 employees in the Netherlands and a network of 42 worldwide sales and service locations Praxis has built up a reputation as a solid partner and we are market-leading in our field. The high-quality knowledge and experience of our employees is the driving force that pushes us forward to reach new achievements.

We distinguish ourselves through the involvement of our people. We take each other into account and we are always open to feedback. In short: a pleasant environment to work in!
