- Keep track of the planning and coordinate deliveries with other departments.
- Prepare systems for the factory acceptance test (FAT).
- Organizing the factory acceptance test (FAT) with the classification society and the customer.
- Coordinate system deliveries.
- Provide system certificates to the customers.

Requirements

- MBO diploma with specialty in automation, electrical engineering.
- A beginner or someone with several years of relevant work experience.
- Affinity with computers and Windows.
- Customer oriented attitude.
- Good communications skills both Dutch and English.
- Accurate working style
- Teamplayer with a positive attitude

We offer

- A job in a flexible and international environment
- An informal, collegial working atmosphere
- A team of enthusiastic colleagues
- A competitive salary
- A good secondary employment package
