

Are you a technical talent, and do you want to strengthen our PCB assembly team?
Then we are looking for you!

SMD Operator (fulltime)

Job descriptions

With a small team you are responsible for the SMT assembly line. You will prepare the installation, assemble the electronic boards and make sure that they comply with the IPC quality norms.

Responsibilities

- Placing SMD components using a “pick and place” machine
- Perform machine operator processes (startup, loading a recipe, adjusting the conveyor belt, production runs, shutdown, and alarms)
- Positions PCBs on machine bed holding fixtures, starts machine, and monitors machine operation
- Makes minor machine adjustments such as placement of parts, measurement of components and change or correct package size, clears machine jams.
- Records production information such as production levels, machine downtime, and defects
- Soldering of PCBs by a “Reflow” oven and wave soldering
- Inspection of the assembled printed circuit boards, both visual and automatic inspection
- Perform “rework” and modifications
- Notifies supervisor or maintenance mechanic of machine malfunctions
- Work under the “ESD” and “IPC” rules.
- Understanding of solder paste print process
- Ability to write & read in English to complete Batch Log and Parts Changeover Logs

Requirements

- Diploma MBO Level 4 electronics or equivalent
- Interested in working with printed circuit boards
- Experience with SMT assembly line
- Knowledge of IPC regulations and SMD technics
- Ability to write & read in English to complete Batch Log and Parts Changeover Logs
- Teamwork and positive attitude

We offer

- A job in a flexible and very international environment
- An informal, collegial working atmosphere
- A team of enthusiastic colleagues
- A competitive salary
- A good secondary employment package
