Who we are

Located in Leiderdorp, The Netherlands, founded in 1965, Praxis Automation Technology is a manufacturer and supplier of automation, navigation and green propulsion systems for sea going vessels.

Our passion for shipping and technology is the engine of our company. We offer high-quality innovative systems that use the very latest technologies. A key strength is being able to convert the wishes and needs of our customers into a tailor-made quality system, our company is a trendsetter in sustainable innovations. We supply our products to international shipyards, ship owners and installers and serve them via our selected global network of service and maintenance points.

With more than 70 employees in the Netherland and a network of 42 worldwide sales and service locations Praxis has built up a reputation as a solid partner and we are market-leading in our field. The high-quality knowledge and experience of our employees is the driving force that pushes us forward to reach new achievements.

We distinguish ourselves through the involvement of our people. We take each other into account and we are always open to feedback. In short: a pleasant environment to work in!
