

Are you a technical talent, and want to strengthen our production team?
Then we are looking for you!

Switchboard Electrician

Job description

We are looking for a full-time technical colleague for a wide range of production activities. You mainly produce switch boards and panels based on technical drawings. You build up the cabinets with the necessary electronics and wiring. You test and check your own work, and possibly from other colleagues as well. The working location is in our factory in Leiderdorp.

Responsibilities

- Independently executing production activities such as the processing of switch boxes.
- Connecting wiring on the basis of technical drawings.
- Performing checks on wiring and production work.

Requirements

- A technical VMBO or MBO 2 course in electrical engineering.
- Experience working in a production environment.
- Interested in working with electronics.
- Being able to work independently.
- Not yet in possession of a technical diploma? You are still welcome.
- Good communication skills in Dutch and English.
- EU residence

We offer

- A job in a flexible environment
- An informal, collegial working atmosphere
- Training and personal development opportunities
- A multicultural team of enthusiastic colleagues
- A competitive salary
- A good secondary employment package

Who are we?

Founded in 1965 in Leiderdorp, The Netherlands, Praxis Automation Technology is a manufacturer and supplier of automation, navigation and green propulsion systems for sea going vessels.
